

Five Ring Patch Cord Minder

KRONE®

Designed using state-of-the-art software, KRONE's Five-Ring Patch Cord Minder is an entirely moulded product.

- The Five-Ring Patch Cord Minder has extra long jumper rings that can hold twice the number of patch cords of conventional products. The extra depth is also useful for maintaining cable bend radius requirements - a major factor with Category 6 performance.

The Five-Ring Patch Cord Minder has an extra jumper ring to help manage the load of cables.

- A unique mounting feature allows the product to mount onto a 19" rack without the need for cage nuts. This mounting feature only requires a screw at either end of the product in order to attach it to the rack. Affordably priced, the new five-ring patch cord minder is available in black, to match the Keystone range of patch panels, or in dark grey, to match the HIGHWAY® range of patch panels.

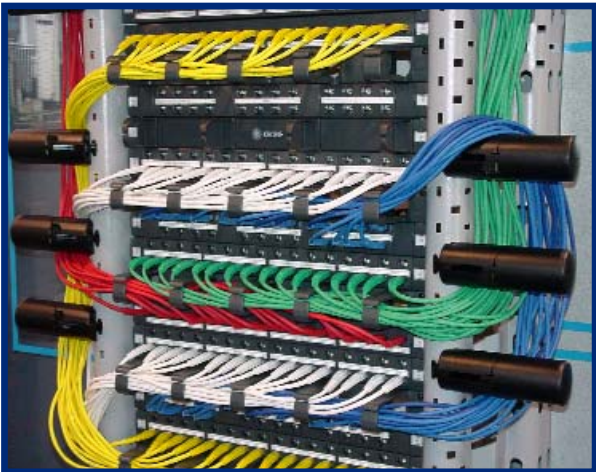

Features and Benefits

- Comfortably secures 32+ Cat 5 or Cat 6 patch cords
- No cage nuts required — resulting in faster installation
- Five jumper rings instead of four
- Extra deep jumper rings — 85mm
- Available in dark grey and black
- Available individually or in boxes of five
- Doesn't exceed 1RU allowing for multiple minders to be used
- Mandatory for Cat 6 installation

Dimensions

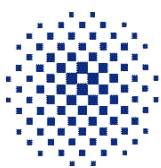

483MM X 44MM X 100MM
