

Fibre patch panel for use with standard cabling or blown fibre systems.

- Modular adaptor plates
- Integral fibre management
- Light-weight and robust

### Application include

- Fibre campus links
- Fibre backbone links
- Telecoms
- CATV

### Technical Specification

- Accepts SC duplex, SC simplex, MT-RJ and ST adaptors
- Open channels at rear for use with blown fibre tubes
- Knock-outs to enable termination of loose-tube or tight-buffered cables
- Integral fibre management system

### Dimensions

Width 19"  
Height 1 U  
Depth 270 mm

### Materials

Polycarbonat  
PC/ABS

### Enviromental Standards

EN 6008-2-2  
IEC 68-2-14  
IEC 68-2-6  
IEC 68-2-27  
IEC 68-2-3

### Operating Enviroment

EN 50173  
ISO/IEC 11801

MT-RJ FO Plastic Patch Panel
